Los Angeles, California 90017

**Re: Yosemite Creek Superfund Site, San Francisco, CA  
Response to 104(e) Information Request**

This letter responds to the October 15, 2009 request for information ("RFI") of the United States Environmental Protection Agency ("EPA") to Redwood Oil Company, Inc. with regard to the Yosemite Creek Superfund site (the "Site"). Subject to both the general and specific objections noted below, and without waiving these or other available objections or privileges, Redwood Oil Company, Inc. submits the following in response to the RFI and in accordance with the January 11, 2010 due date that EPA has established for this response.

In responding to the RFI, Redwood Oil Company, Inc. has undertaken a diligent and good faith search for, and review of, documents and information in its possession, custody or control and that are relevant to this matter. However, the RFI purports to seek a great deal of information that is not relevant to the Site or alleged contamination at the Site. For example, while we understand the basis of the purported connection between Redwood Oil Company, Inc. and the former Bay Area Drum State Superfund Site at 1212 Thomas Avenue in San Francisco, California (the "BAD Site"), certain RFI questions seek information regarding facilities other than the BAD Site, including *all* facilities in California and *all* facilities outside California that shipped drums or other containers to *any* location in the entire state of California. These other facilities throughout California and the United States have no nexus to the Site. Because such questions are not relevant to the Site, they are beyond the scope of EPA's authority as set forth in Section 104(e)(2)(A) of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") (EPA may request information "relevant to . . . the identification, nature, and quantity of materials which have been . . . transported to a . . . facility").

The RFI also defined "COCs" as "any of the contaminants of concern at the Site and includes: lead, zinc, mercury, dichlorodiphenyltrichloroethane ("DDT"), chlordane, dieldrin, and polychlorinated biphenyls ("PCBs")." However, certain RFI requests also seek information regarding hazardous substances more broadly. These requests go beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and are not relevant to the Site pursuant to Section 104(e)(2)(A) of CERCLA; thus Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA.

As you know, the California Department of Toxic Substances Control ("DTSC") conducted an extensive investigation of the BAD Site and Redwood Oil Company, Inc.'s operations in connection with it. DTSC's investigation included an information request to Responding Party and the DTSC files include Redwood Oil Company, Inc.'s Response to DTSC's information request, among other documents. We understand that EPA is already in

possession of DTSC's files regarding the BAD Site, and to the extent that EPA is not in possession of these files, they are readily available to EPA. Thus, the focus of Redwood Oil Company, Inc.'s identification, review and retrieval of documents has been upon data that has not been previously provided to EPA, DTSC or any other governmental agency that is relevant to the Site.

## **GENERAL OBJECTIONS**

Redwood Oil Company, Inc. asserts the following general privileges, protections and objections with respect to the RFI and each information request therein.

1. Redwood Oil Company, Inc. asserts all privileges and protections it has in regard to the documents and other information sought by EPA, including the attorney-client privilege, the attorney work product doctrine, all privileges and protections related to materials generated in anticipation of litigation, the settlement communication protection, the confidential business information ("CBI") and trade secret protections, and any other privilege or protection available to it under law. In the event that a privileged or protected document has been inadvertently included among the documents produced in response to the RFI, Redwood Oil Company, Inc. asks that any such document be returned to Redwood Oil Company, Inc. immediately and here states for the record that it is not thereby waiving any available privilege or protection as to any such document.
2. In the event that a document containing CBI or trade secrets has been inadvertently included among the numerous documents provided in response to the RFI, Redwood Oil Company, Inc. asks that any such documents be returned to Redwood Oil Company, Inc. immediately so that Redwood Oil Company, Inc. may resubmit the document in accordance with the applicable requirements for the submission of Confidential Information.
3. Redwood Oil Company, Inc. objects to any requirement to produce documents or information already in the possession of a government agency, including but not limited to DTSC, or already in the public domain. As noted above, DTSC conducted an extensive investigation of the BAD Site and Redwood Oil Company, Inc.'s operations in connection with it. DTSC's investigation included an information request to Responding Party and the DTSC files include Redwood Oil Company, Inc.'s Response to DTSC's information request. EPA is already in possession of DTSC's files regarding the BAD Site, and to the extent that EPA is not in possession of these files, they are readily available to EPA. Notwithstanding this objection, and without waiving it, Redwood Oil Company, Inc. may produce certain information or documents in its possession, custody, or control that it previously provided to or obtained from government agencies that contain information responsive to the RFI.
4. Redwood Oil Company, Inc. objects to Instruction 4 to the extent it seeks to require Redwood Oil Company, Inc., if information responsive to the RFI is not in its possession, custody, or control, to identify any and all persons from whom such information "may be obtained." Redwood Oil Company, Inc. is aware of no obligation that it has under Section 104(e) of CERCLA to identify all other persons who may have information responsive to EPA information requests and is not otherwise in a position to identify all such persons who may have such information.

5. Redwood Oil Company, Inc. objects to Instruction 5 on the ground that EPA has no authority to impose a continuing obligation on Redwood Oil Company, Inc. to supplement these responses. Redwood Oil Company, Inc. will, of course, comply with any lawful future requests that are within EPA's authority.
6. Redwood Oil Company, Inc. objects to Instruction 6 in that it purports to require Redwood Oil Company, Inc. to seek and collect information and documents in the possession, custody or control of individuals not within the custody or control of Redwood Oil Company, Inc. EPA lacks the authority to require Redwood Oil Company, Inc. to seek information not in its possession, custody or control.
7. Redwood Oil Company, Inc. objects to the RFI's definition of "document" or "documents" in Definition 3 to the extent it extends to documents not in Redwood Oil Company, Inc.'s possession, custody, or control. Redwood Oil Company, Inc. disclaims any responsibility to search for, locate, and provide EPA copies of any documents "known by Redwood Oil Company, Inc. to exist" but not in Redwood Oil Company, Inc.'s possession, custody, or control.
8. Redwood Oil Company, Inc. objects to the RFI's definition of "Facility" or "Facilities" in Definition 4 because the terms are overbroad to the extent that they extend to facilities with no connection to either the Site or the BAD Site. Moreover, the term "Facilities" as defined in the RFI is confusing and unintelligible as the term is defined as having separate meanings in Definition 4 and Request No. 3.
9. Redwood Oil Company, Inc. objects to the definition of "identify" in Definition 7 to the extent that the definition encompasses home addresses of natural persons. Subject to this objection, current Redwood Oil Company, Inc. employees and any other natural persons are identified by name and corporate address. Redwood Oil Company, Inc. requests that any contacts with Redwood Oil Company, Inc. employees identified in these responses or the related documents be initiated through Peter Van Alyea at Redwood Oil Company, 50 Professional Center Drive, Rohnert Park, Ca. 94928.
10. Redwood Oil Company, Inc. objects to the definition of "you," "Redwood Oil Company, Inc.," and "Redwood Oil Company, Inc." in Definition 14 because the terms are overbroad and it is not possible for Redwood Oil Company, Inc. to answer questions on behalf of all the persons and entities identified therein. Notwithstanding this objection, and without waiving it, Redwood Oil Company, Inc. has undertaken a diligent and good faith effort to locate and furnish documents and information in its possession, custody, and control that are responsive to the RFI.
11. Redwood Oil Company, Inc. objects to EPA's requests that Redwood Oil Company, Inc. provide EPA separately information that is contained in documents being furnished by Redwood Oil Company, Inc. in response to the RFI. Where documents have been provided in connection with a response, information sought by EPA in the corresponding request for information that is set forth in those documents is not furnished separately. To do otherwise would be unduly burdensome.

## RESPONSES TO OCTOBER 15, 2009 EPA INFORMATION REQUESTS

1. *Describe generally the nature of the business conducted by Redwood Oil Company, Inc. and identify the products manufactured, formulated, or prepared by Redwood Oil Company, Inc. throughout its history of operations.*

### **RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Identifying each of the products manufactured by Redwood Oil Company, Inc. is not feasible . . . due to scope of products and long history, etc.

The general nature of the business conducted by Redwood Oil Company, Inc. is the wholesale purchase and resale of petroleum products.

2. *Provide the name (or other identifier) and address of any facilities where Redwood Oil Company, Inc. carried out operations between 1940 and 1988 (the "Relevant Time Period") and that:*

- a. *ever shipped drums or other containers to the BAD Site for recycling, cleaning, reuse, disposal, or sale.*
- b. *are/were located in California (excluding locations where ONLY clerical/office work was performed);*
- c. *are/were located outside of California and shipped any drums or other containers to California for recycling, cleaning, reuse, disposal, or sale (for drums and containers that were shipped to California for sale, include in your response only transactions where the drums and containers themselves were an object of the sale, not transactions where the sole object of the sale was useful product contained in a drum or other container).*

### **RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." However, in addition to facilities with a connection to the BAD Site, Request No. 2 purports to also seek information regarding *any* facility located in California (excluding locations where ONLY clerical/office work was performed) and *any* facility located outside of California that shipped drums or other containers to *any* location in California, even to locations other than the BAD Site. These other facilities have no nexus with the BAD Site, and thus this request seeks information that is not relevant to the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain

information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

Redwood Oil Company, based at 455 Yolanda Avenue, Santa Rosa, California, was a distributor of petroleum products that were purchased from various California petroleum refiners. Relating to the BAD site, ROC purchased lubricants in both drum and bulk that were delivered to the Yolanda Avenue facility and subsequently resold to commercial end users. ROC then allowed these end users to return their empty drums to ROC, where they were drip drained before being sent to the BAD operation for reconditioning. ROC also purchased reconditioned drums from BAD for re-filling and resale.

Needless to say, if we had known that the BAD operators were miss-managing their waste, we would not have sent any of these empty drums to them for reconditioning. There were no contracts between ROC and BAD. It was simply a vendor-customer relationship, with ROC paying a fee for services rendered.

Redwood Oil Company, Inc. located at 455 Yolanda Avenue, Santa Rosa, CA shipped drums to the BAD Site for reconditioning during the period of March 14, 1984 to February 20, 1987. Invoices and Bill of Ladings are enclosed as Exhibit A as evidence of our relationship with the BAD Site. Also included as Exhibits B and C respectively, is a letter from the Department of Toxic Substances Control dated December 4, 1991 and Redwood Oil Company, Inc.'s response to that request for information in which they ask many of the similar questions that are contained in this request for information.

3. *Provide a brief description of the nature of Redwood Oil Company, Inc.'s operations at each Facility identified in your response to Question 2 (the "Facilities") including:*
- a. *the date such operations commenced and concluded; and*
  - b. *the types of work performed at each location over time, including but not limited to the industrial, chemical, or institutional processes undertaken at each location.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. In particular, but without limiting the generality of the foregoing objection, Redwood Oil Company, Inc. objects to the request in (b.) that it describe "types of work performed at each location over time . . . ." Without an identification by EPA of the types of work it is referring to, it would be virtually impossible, given the broad nature of possible work at various facilities, to describe each and every type of work that was performed at any facility. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain

information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

See answer to question #2.

4. *For each Facility, describe the types of records regarding the storage, production, purchasing, and use of Substances of Interest ("SOI") during the Relevant Time Period that still exist and the periods of time covered by each type of record.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome to the extent it seeks to require Redwood Oil Company, Inc. to describe "types of records." Where documents have been provided in response to this RFI, each and every document regarding SOIs is not also "identified" by describing its contents. Redwood Oil Company, Inc. further objects to Request No. 4 as it purports to seek information relating to hazardous substances beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and that is not relevant to the Site; thus Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

All records regarding the storage, production, purchasing, and use of Substances of Interest during the Relevant Time Period have been destroyed prior to the year 2000 except for the records contained in Exhibit A.

5. *Did Redwood Oil Company, Inc. ever (not just during the Relevant Time Period) produce, purchase, use, or store one of the COCs (including any substances or wastes containing the COCs) at any of the Facilities? State the factual basis for your response.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. By removing any temporal limit and any nexus between COCs at Redwood Oil Company, Inc.'s Facilities and the BAD Site, Request No. 5 purports to seek information relating to Redwood Oil Company, Inc.'s Facilities that is not relevant to contamination at the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

To the best of our knowledge drums including COCs were not sent to the BAD. Leaded gasoline was stored in underground storage tanks at our facility and never had any connection to BAD. There was a complete phase out of leaded gasoline in 1986.

6. *If the answer to Question 5 is yes, identify each COC produced, purchased, used, or stored at each Facility.*

**RESPONSE:**

Leaded gasoline.

7. *If the answer to Question 5 is yes, identify the time period during which each COC was produced, purchased, used, or stored at each Facility.*

**RESPONSE:**

During the relevant time period between March, 1984 and February, 1987.

8. *If the answer to Question 5 is yes, identify the average annual quantity of each COC produced, purchased, used, or stored at each Facility.*

**RESPONSE:**

To the best of our knowledge, leaded gasoline was never stored in drums.

Leaded gas produced – zero; purchased – 7 million gallons annual average; used – zero; stored – 15,000 gallons in underground tanks for bulk truck deliveries to customers and card lock sales.

9. *If the answer to Question 5 is yes, identify the volume of each COC disposed by the Facility annually and describe the method and location of disposal.*

**RESPONSE:**

None

10. *Did Redwood Oil Company, Inc. ever (not just during the Relevant Time Period) produce, purchase, use, or store hydraulic oil or transformer oil at any of the Facilities? State the factual basis for your response to this question.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. By removing any temporal limit and any nexus between hydraulic fuel or transformer oil at Redwood Oil Company, Inc.'s Facilities and the BAD Site, Request No. 10 purports to seek information relating to Redwood Oil Company, Inc.'s Facilities that is not relevant to contamination at the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

Yes, Redwood Oil Company purchased and stored hydraulic and transformer oil and sold it in drums that were sent California empty to BAD. We have no knowledge of the quantity.

11. *If the answer to Question 10 is yes, identify each specific type of hydraulic oil and transformer oil produced, purchased, used, or stored at each Facility.*

**RESPONSE:**

Chevron Hydraulic 32, 46, 68

Shell Transformer Oil Diala AX

12. *If the answer to Question 10 is yes, identify the time period during which each type of hydraulic oil and transformer oil was produced, purchased, used, or stored.*

**RESPONSE:**

During the relevant time period of March 1984 to February 1987.

13. *If the answer to Question 10 is yes, identify the average annual quantity of each type hydraulic oil and transformer oil purchased, produced, used, or stored at each Facility.*

**RESPONSE:**

Hydraulic Oil purchased an average of 100,000 gallons per year and stored an average of 5,000 gallons per year.

Transformer Oil purchased an average of 500 gallons per year and stored an average of 55 gallons per year.

14. *If the answer to Question 10 is yes, identify the volume of each hydraulic oil and transformer oil disposed by the Facility annually and describe the method and location of disposal.*

**RESPONSE:**

None

15. *Provide the following information for each SOI (SOIs include any substance or waste containing the SOI) identified in your responses to Questions 5 and 10:*

- a. *Describe briefly the purpose for which each SOI was used at the Facility. If there was more than one use, describe each use and the time period for each use;*
- b. *Identify the supplier(s) of the SOIs and the time period during which they supplied the SOIs, and provide copies of all contracts, service orders, shipping manifests, invoices, receipts, canceled checks and other documents pertaining to the procurement of the SOI;*
- c. *State whether the SOIs were delivered to the Facility in bulk or in closed containers, and describe any changes in the method of delivery over time;*
- d. *Describe how, where, when, and by whom the containers used to store the SOIs (or in which the SOIs were purchased) were cleaned, removed from the Facility, and/or disposed of, and describe any changes in cleaning, removal, or disposal practices over time.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Request No. 15 purports to seek information relating to Redwood Oil Company, Inc.'s Facilities that is not relevant to contamination at the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

To the best of our knowledge, the purpose for which leaded gasoline, hydraulic oil and transformer oil was used at our facility was for resale. The suppliers of the leaded gasoline were various vendors and the suppliers of the hydraulic and transformer oils were Shell and Chevron. Any documents pertaining to the procurement of the above mentioned products were destroyed prior to the year 2000. The products were delivered in bulk and drums. During the period of 3/04 through 2/87, Redwood Oil Company, Inc. performed work such as motor oil and gasoline storage, card lock and truck maintenance. The process by which we sent drums to the BAD was, prior to leaving our yard, all drums were either inverted and drip-dried, or pumped free of residual products and then drip-dried. At no time were any products returned to the Bay Area Drum for disposal as per California empty regulations.

16. *For each SOI delivered to the Facilities in closed containers, describe the containers, including but not limited to:*

- a. *the type of container (e.g. 55 gal. drum, tote, etc.);*
- b. *whether the containers were new or used; and*
- c. *if the containers were used, a description of the prior use of the container.*

## **RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Request No. 16 purports to seek information relating to Redwood Oil Company, Inc.'s Facilities that is not relevant to contamination at the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

The type of closed container that was used to deliver to the facility was DOT 17, 55 gallon drums. The containers were both new and used. The condition of the used containers prior to our use was like new condition.

17. *For each container that Redwood Oil Company, Inc. used to store a SOI or in which SOIs were purchased ("Substance-Holding Containers" or "SHCs") that was later removed from the Facility, provide a complete description of where the SHCs were sent and the circumstances under which the SHCs were removed from the Facility. Distinguish between the Relevant Time Period and the time period since 1988, and describe any changes in Redwood Oil Company, Inc.'s practices over time.*

## **RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Redwood Oil Company, Inc. further objects to Request No. 17 as it assumes that each SHC is somehow individually identified, tracked, and used and reused by the same entity throughout the life of the SHC. There is no evidence that BAD operated in this way or that it tracked SHCs for its customers such that this information is available. Generally, SHCs, such as drums sent to drum reconditioners by a customer, are fungible commodities and are not individually tagged or tracked to ensure their return to that particular customer. Accordingly, Request No. 17 purports to seek information that does not exist.

Redwood Oil Company, Inc. further objects to Request No. 17 as it purports to seek information relating to hazardous substances beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and that is not relevant to the Site; thus Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA.

Additionally, as stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." However, Request No. 17 purports to seek information regarding SHCs that were sent to sites other than the BAD Site. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site.

18. *For each SHC that was removed from the Facility, describe Redwood Oil Company, Inc.'s contracts, agreements, or other arrangements under which SHCs were removed from the Facility, and identity all parties to each contract, agreement, or other arrangement described. Distinguish between the Relevant Time Period and the time period since 1988.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." However, Request No. 18 purports to seek information regarding SHCs that were sent to sites other than the BAD Site. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site.

19. *For each SHC, provide a complete explanation regarding the ownership of the SHC prior to delivery, while onsite, and after it was removed from the Facility. Distinguish between the Relevant Time Period and the time period since 1988, and describe any changes in Redwood Oil Company, Inc.'s practices over time.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Redwood Oil Company, Inc. further objects to Request No. 19 as it assumes that each SHC is somehow individually identified, tracked, and used and reused by the same entity throughout the life of the SHC. There is no evidence that BAD operated in this way or that it tracked SHCs for its customers such that this information is available. Generally, SHCs, such as drums sent to drum reconditioners by a customer, are fungible commodities and are not individually tagged or tracked to ensure their return to that particular customer. Accordingly, Request No. 19 purports to seek information that does not exist. As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." However, Request No. 19 purports to seek information regarding SHCs that were sent to sites other than the BAD Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

The ownership of the containers prior to delivery is unknown; while onsite at our facility the ownership belonged to Redwood Oil Company, Inc. and after it was removed from the facility belonged to the customer purchasing the product.

20. *Identify all individuals who currently have, and those who have had, responsibility for procurement of Materials at the Facilities. Also provide each individual's job title, duties, dates performing those duties, current position or the date of the individual's resignation, and the nature of the information possessed by each individual concerning Redwood Oil Company, Inc.'s procurement of Materials.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Request No. 20 purports to seek information relating to Redwood Oil Company, Inc.'s Facilities that is not relevant to contamination at the Site. Redwood Oil Company, Inc. further objects to Request No. 20 as it purports to seek information regarding procurement of "Materials" at facilities other than the BAD Site and thus goes beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

The individuals who have had responsibility for procurement of materials at the facility were Ron Kron (previous Motor Oil Manager), Jim Johnson (previous Motor Oil Manager).

21. *Describe how each type of waste containing any SOIs was collected and stored at the Facilities prior to disposal/recycling/sale/transport, including:*

- a. *the type of container in which each type of waste was placed/stored;*
- b. *how frequently each type of waste was removed from the Facility; Distinguish between the Relevant Time Period and the time period since 1988, and describe any changes in Redwood Oil Company, Inc.'s practices over time.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." However, Request No. 21 purports to seek information regarding collection and storage of "any SOIs" at facilities other than the BAD Site. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain

information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

When the 55 gallon drums were returned from our customers, any residual product was pumped out of the drum into a waste oil tank, and then complied with California empty. The waste was removed monthly by a California Certified Waste Hauler by pumping out the tank and hauling the waste oil off the premises.

22. *Describe the containers used to remove each type of waste containing any SOIs from the Facilities, including but not limited to:*

- a. *the type of container (e.g. 55 gal. drum, dumpster, etc.);*
- b. *the colors of the containers;*
- c. *any distinctive stripes or other markings on those containers;*
- d. *any labels or writing on those containers (including the content of those labels);*
- e. *whether those containers were new or used; and*
- f. *if those containers were used, a description of the prior use of the container;*

*Distinguish between the Relevant Time Period and the time period since 1988, and describe any changes in Redwood Oil Company, Inc.'s practices over time.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Redwood Oil Company, Inc. further objects to Request No. 22 as it assumes that each SHC is somehow individually identified, tracked, and used and reused by the same entity throughout the life of the SHC. There is no evidence that BAD operated in this way or that it tracked SHCs for its customers such that this information is available. Generally, SHCs, such as drums sent to drum reconditioners by a customer, are fungible commodities and are not individually tagged or tracked to ensure their return to that particular customer. Accordingly, Request No. 22 purports to seek information that does not exist.

As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." Moreover, the RFI defined "COCs" as "any of the contaminants of concern at the Site and includes: lead, zinc, mercury, DDT, chlordane, dieldrin, and PCBs. Redwood Oil Company, Inc. further objects to Request No. 22 as it purports to seek information relating to hazardous substances beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and that is not relevant to the Site; thus, Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA. Additionally, Redwood Oil Company, Inc. objects to Request No. 22 as it purports to seek information regarding containers used to remove each type of waste containing any SOIs from the Facilities and taken to *any* other

place during *any* time. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

We did not remove waste containing any SOI's from our facility, we collected the waste here at our facility and it was removed by a California Certified Waste Hauler.

23. *For each type of waste generated at the Facilities that contained any of the SOIs, describe Redwood Oil Company, Inc.'s contracts, agreements, or other arrangements for its disposal, treatment, or recycling and identify all parties to each contract, agreement, or other arrangement described. State the ownership of waste containers as specified under each contract, agreement, or other arrangement described and the ultimate destination or use for such containers. Distinguish between the Relevant Time Period and the time period since 1988, and describe any changes in Redwood Oil Company, Inc.'s practices over time.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." Moreover, the RFI defined "COCs" as "any of the contaminants of concern at the Site and includes: lead, zinc, mercury, DDT, chlordane, dieldrin, and PCBs. Redwood Oil Company, Inc. further objects to Request No. 23 as it purports to seek information relating to hazardous substances beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and that is not relevant to the Site; thus, Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA. Additionally, Redwood Oil Company, Inc. objects to Request No. 23 as it purports to seek information regarding waste generated at any Facilities that contained any SOIs and taken to *any* other place during *any* time. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

Once a month a Certified California Waste Hauler would pump out our waste oil tank.

24. *Identify all individuals who currently have, and those who have had, responsibility for Redwood Oil Company, Inc.'s environmental matters (including responsibility for the disposal, treatment, storage, recycling, or sale of Redwood Oil Company, Inc.'s wastes and SHCs).*

*Provide the job title, duties, dates performing those duties, supervisors for those duties, current position or the date of the individual's resignation, and the nature of the information possessed by such individuals concerning Redwood Oil Company, Inc.'s waste management.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Identifying all individuals who currently have, and those who have had, responsibility for Redwood Oil Company, Inc.'s environmental matters at all of Redwood Oil Company, Inc.'s Facilities, including those that have no nexus to the BAD Site, is not feasible . . . due to long history of existence/operations, the number of Redwood Oil Company, Inc.'s locations, etc..

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

In addition to those named in question #20, Peter Van Alyea and Bob Barbieri have had responsibility for Redwood Oil Company, Inc.'s environmental matters.

25. *Did Redwood Oil Company, Inc. ever purchase drums or other containers from a drum recycler or drum reconditioner? If yes, identify the entities or individuals from which Redwood Oil Company, Inc. acquired such drums or containers.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Identifying all drum recyclers or drum reconditioners from which Redwood Oil Company, Inc. has ever acquired such drums or containers is not feasible . . . due to long history of existence/operations, the number of Redwood Oil Company, Inc.'s locations, etc..

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

Redwood Oil Company purchased drums from Bay Area Drum Company.

26. *Prior to 1988, did Redwood Oil Company, Inc. always keep its waste streams that contained SOIs separate from its other waste streams?*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. Redwood Oil Company, Inc. further objects to Request No. 26 as it purports to seek information relating to hazardous substances beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and that is not relevant to the Site; thus, Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA.

27. *Identify all removal and remedial actions conducted pursuant to the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601 et seq., or comparable state law; all corrective actions conducted pursuant to the Resource Conservation and Recovery Act, 42 U.S.C. § 6901 et seq.; and all cleanups conducted pursuant to the Toxic Substances Control Act, 15 U.S.C. § 2601 et seq. where (a) one of the COCs was addressed by the cleanup and (b) at which Redwood Oil Company, Inc. paid a portion of cleanup costs or performed work. Provide copies of all correspondence between Redwood Oil Company, Inc. and any federal or state government agency that (a) identifies a COC and (b) is related to one of the above-mentioned sites.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. As stated in the RFI, "EPA is seeking to identify parties that have or may have contributed to contamination at the Site." However, Request No. 27 purports to seek information regarding a broad range of removal and remedial actions, corrective actions and cleanups. Moreover, identifying all such removal and remedial actions is not feasible . . . due to long history of existence/operations, the number of Redwood Oil Company, Inc.'s locations, etc. To the extent that EPA seeks information about facilities that have no nexus with the BAD Site, this request is not relevant to the Site. Redwood Oil Company, Inc. further objects to Request No. 27 to the extent that EPA is already in possession of the requested documents, and to the extent that EPA is not in possession of these files, they are readily available to EPA.

28. *Provide all records of communication between Redwood Oil Company, Inc. and Bay Area Drum Company, Inc.; Meyers Drum Company; A.W. Sorich Bucket and Drum Company; Waymire Drum Company, Inc.; Waymire Drum and Barrel Company, Inc.; Bedini Barrels Inc.; Bedini Steel Drum Corp.; Bedini Drum; or any other person or entity that owned or operated the facility located at 1212 Thomas Avenue, in the City and County of San Francisco, California.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. DTSC conducted an extensive investigation of the BAD Site and Redwood Oil Company, Inc.'s operations in connection with it. DTSC's files include extensive

records concerning the Bay Area Drum Company, Inc. and other persons and entities that owned or operated the facility located at 1212 Thomas Avenue, in the City and County of San Francisco, California. Redwood Oil Company, Inc. understands that EPA is already in possession of DTSC's files regarding the BAD Site, and to the extent that EPA is not in possession of these files, they are readily available to EPA.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

The records of communication that are in our possession are included in Exhibits A, B, and C.

29. *Identify the time periods regarding which Redwood Oil Company, Inc. does not have any records regarding the SOIs that were produced, purchased, used, or stored at the Facilities.*

**RESPONSE:**

In addition to the General Objections set forth above, Redwood Oil Company, Inc. objects to this request as overbroad in scope, unauthorized by law to the extent it is overbroad, and unduly burdensome. In responding to the RFI, Redwood Oil Company, Inc. has undertaken a diligent and good faith search for, and review of, documents and information in its possession, custody or control and that are relevant to this matter. Moreover, Redwood Oil Company, Inc. understands that EPA is already in possession of DTSC's files regarding the BAD Site. Redwood Oil Company, Inc. is under no further obligation to identify time periods to which these documents do not pertain.

Notwithstanding the foregoing, and without any waiver of its objections, Redwood Oil Company, Inc. is providing EPA with certain information and documents that contain information related to Redwood Oil Company, Inc.'s Facilities that shipped drums or other containers to the BAD Site.

All of the records we have been provided to you.

30. *Provide copies of all documents containing information responsive to the previous twenty-nine questions and identify the questions to which each document is responsive.*

**RESPONSE:**

Redwood Oil Company, Inc. objects to Request No. 30 as it purports to seek information relating to hazardous substances beyond the specific chemicals for which EPA purports to have evidence of a release or threatened release to the environment at the Site and that is not relevant to the Site; thus, Redwood Oil Company, Inc. has limited its review of documents and information to the COCs identified by EPA. Redwood Oil Company, Inc. further objects to Request No. 30 as it purports to seek copies of documents containing information responsive to the previous twenty-nine questions. DTSC conducted an extensive investigation of the BAD Site and Redwood Oil Company, Inc.'s operations in connection with it. DTSC's investigation

included an information request to Responding Party and the DTSC files include Redwood Oil Company, Inc.'s Response to DTSC's information request, among other documents. We understand that EPA is already in possession of DTSC's files regarding the BAD Site, and to the extent that EPA is not in possession of these files, they are readily available to EPA.

Any questions EPA may have regarding the responses to these information requests may be directed to Peter Van Alyea at 50 Professional Drive, Rohnert Park, Ca. 94928.

RECEIVING TICKET

**BAY AREA DRUM CO., Inc.**

A detailed black and white illustration of a drum, positioned centrally below the company name. The drum is shown from a slightly elevated, side-on perspective, highlighting its cylindrical body, tension rods, and the central head. The illustration is rendered in a high-contrast, woodcut-like style.

"Exhibit B"

STATE OF CALIFORNIA - ENVIRONMENTAL PROTECTION AGENCY

PETE WILSON, Governor

DEPARTMENT OF TOXIC SUBSTANCES CONTROL  
700 HEINZ AVENUE, SUITE 200  
BERKELEY, CALIFORNIA 94710

December 4, 1991

CERTIFIED MAIL  
RETURN RECEIPT REQUESTED

Mr. Peter C. Van Alyea  
Redwood Oil Company  
P. O. Box 428  
Santa Rosa, California 95402

Dear Mr. Peter C. Van Alyea:

The California Environmental Protection Agency, Department of Toxic Substances Control (Department) has determined that the Bay Area Drum Site (hereafter the Site) in San Francisco, California has a soil and ground-water contamination problem. The Site is located at 1212 Thomas Avenue at the northern corner of Hawes Street and is in the Hunter's Point district of San Francisco, California. A map of the Site area is enclosed with this letter. The Site is currently occupied by an abandoned office/processing plant building and the former drum reconditioning yard, which is now a flat, capped yard. The Site is fenced off from the surrounding neighborhood.

Drum recycling and reconditioning activities were undertaken by several companies, including Bedini Steel Drum, Myers Drum, Waymire Drum Co., and Bay Area Drum Co. from 1948 to 1987. The identified Site contamination consists of 60 chemical contaminants in the soil and the groundwater on-site and 58 chemical contaminants in areas immediately adjacent to the Site. Soil contamination in the drum yard includes chromium, lead, nickel, and zinc at concentrations exceeding the Total Threshold Limit Concentration (TTLC) and VOCs, 1,1,2,2-tetrachloroethane, chloroform, and trichloroethene (TCE) at concentrations exceeding the State Designated Level (DL). The semi-volatile organic compounds phenanthrene and pyrene were also detected at concentrations exceeding the State DL. Pesticides and PCBs were detected at concentrations exceeding the TTLC or DL in the drum yard and in the process plant building. These chemicals are considered hazardous substances pursuant to the California Health and Safety Code (H&SC) section 25316.

The purpose of this letter is to request information from companies and individuals who did business with the Bay Area Drum Company to obtain information regarding, among other matters, the type and quantity of hazardous substances that were sent to the Site. These hazardous substances may have been released at the Site. Each of the companies receiving this letter was identified as a

Mr. Peter C. Van Alyea  
Page 2  
December 4, 1991

3357610509

generator of hazardous substances sent to the Site during a review of the records of the Site operators. These records include manifests, invoices, receiving tickets, and other documents. They identify individual companies, and the quantities and types of drums disposed of at the Site. The Department has identified Redwood Oil Company as a Potentially Responsible Party (PRP) as defined in section 25323.5(a) in regards to the Site. Pursuant to the authority of H&SC sections 25185.6, 25358.1, and 25358.3, the Department requests that you supply the Department with all information currently known or available to you relating to the Site within 30 calendar days of the date of this letter.

The specific questions to be answered by you are preceded by a list of instructions and definitions of terms.

Information Request  
Instructions

A. General Instructions

The procedures described below shall be followed in responding to each and every question and subpart of a question set forth in this information request.

1. Provide a separate narrative response to each and every question and subpart of a question set forth in this information request letter.
2. Precede each answer with the number of the question to which it corresponds.
3. Identify the person(s) answering each question and subpart of a question on behalf of you.
4. For each question and subpart of a question, identify each person consulted in the preparation of the answer.
5. For each question and subpart of a question, identify all documents consulted, examined or referred to in the preparation of the answer or that contain information responsive to the question and provide true and accurate copies of all such documents.
6. If you have reason to believe that there may be persons able to provide a more detailed or complete response to any question or subpart of a question

or who may be able to provide additional responsive documents, identify each such person and the additional information or documents that each may have.

7. For each and every question contained herein, if information responsive to this information request is not in your possession, custody or control, then identify the persons from whom such information may be obtained.
8. The terms "and" and "or" shall be construed either disjunctively or conjunctively as necessary to bring within the scope of this information request letter any information that might otherwise be construed to be outside its scope.
9. Words in the masculine shall be construed in the feminine and vice versa, and words in the singular shall be construed in the plural and vice versa, where appropriate in the context of a particular question or questions.
10. For questions 1- 9, an answer must be prepared for Redwood Oil Company, its parent and subsidiary corporations, including wholly and partially owned entities, either presently or at any time in the past that either generated or transported hazardous waste that was sent to the Site.

B. Scope of the Request

This information request is directed to Redwood Oil Company, its parent and subsidiary corporations, including wholly and partially owned entities, and covers all information in your possession, custody and control, including information in the possession of your employees, agents, servants, representatives, your attorneys, or other persons directly or indirectly employed or retained by you, or anyone else acting on your behalf or otherwise subject to your control.

C. Incomplete Response

If any question cannot be answered fully, as full an answer as possible should be provided. In such a case, state the reason for the inability to answer fully and give any information, knowledge, or belief that you have regarding the unanswered portion.

D. Lack of Information

If you currently lack information to answer any question completely, please state:

Mr. Peter C. Van Alyea

Page 4

December 4, 1991

1. The responsive information currently available
2. The responsive information currently unavailable
3. Efforts that you intend to make to secure the information currently unavailable
4. When you anticipate receiving the information currently unavailable.

E. Supplemental Responses

If information or documents not known or not available to you as of the date of submission of a response to this information request should later become known or available to you, you must supplement your response to the Department.

Moreover, should you find, at any time after the submission of your response, that any portion of the submitted information is false or misrepresents the truth, you must notify the Department of this fact as soon as possible and provide the Department with a correct response.

F. Identification of a Natural "Person"

Whenever this information request asks you to identify a "person" where the person is a natural person, state or identify the person's:

1. Name
2. Present or last known business address and business telephone number
3. Present or last known home address and home telephone number
4. Occupation or profession and job title.

G. Identification of a Non-Natural "Person"

Whenever this information request asks you to identify a "person," where the person is not a natural person, but otherwise falls within the definition set forth in H&SC section 25319, e.g. a corporation, partnership, business trust, or other association, or business entity (including a sole proprietorship), state or identify the person's:

1. Name
2. Legal form (e.g. corporation, partnership, etc.)
3. Present or last known principal place of business

Mr. Peter C. Van Alyea  
Page 5  
December 4, 1991

4. Telephone number
5. A brief description of its business.

H. Identification of a Document

Whenever this information request asks you to identify a document, state or identify:

1. Its date
2. Any identifying number, such as an invoice or purchase order number
3. Its author and signatory
4. Its addressee(s) and all other persons receiving copies of the documents
5. The type of document it is (e.g. letter, memorandum, contract, report, etc.)
6. Its title
7. A summary of its substance or subject matter
8. Its custodian
9. Its present or last known location.

I. Document Production

In addition to a full and complete written answer, supplementary information contained within one or more documents that is responsive to the question may be included. In your response to the question, state the relevant document title, identify the specific section or pages from the document that are responsive to the question, and mark the relevant question number on the document.

Mr. Peter C. Van Alyea  
Page 6  
December 4, 1991

J. Deletion from Documents

Wherever possible, complete documents should be submitted. If a document contains voluminous information irrelevant to answering a question, such irrelevant sections may be deleted. If anything has been deleted from a document produced in response to this information request you must:

1. Specify the nature of the material deleted
2. Specify the reason for the deletion
3. Identify the person responsible for the deletion.

K. Estimates

Precise figures or dates shall be provided in response to all question calling for numerical or chronological information. Questions calling for numerical or chronological information shall be deemed to call for estimates, only to the extent that precise figures or dates are not known. In each instance that an estimate is given, the estimate should be identified as such and the source of the information underlying the estimate must be provided.

L. Confidential Business Information

The information requested herein must be provided even though you may contend that it includes confidential business information. You may, if you desire, assert a confidentiality claim covering part or all of the information requested, pursuant to H&SC sections 25173 and 25358.2, by attaching a cover sheet clearly marked "Confidential Business Information," which explains the rationale for considering this information confidential. Please include the specific citation from the Government Code exempting this information from the California Public Records Act. The Department will construe the failure to furnish a claim of confidentiality with your response as a waiver of that claim, and such information may be made available to the public without future notice.

Definitions

All terms not defined herein shall have their ordinary meanings, unless such terms are defined in the Hazardous Substances Account Act, (California H&SC §§ 25310, *et seq.*) in which case the statutory definitions shall apply. Unless otherwise indicated, the following definitions shall apply to the following terms as they are used in this information request.

- A. The term "document" shall mean any object that records, stores or presents information, and includes writings of any kind, formal or informal, whether or not wholly or partially in handwriting, including by way of illustration and not by way of limitation, any invoice, manifest, bill of lading, receipt, endorsement, check, bank draft, cancelled check, deposit slip, withdrawal slip, order, correspondence, record book, minutes, memorandum of telephone, and other conversations including meetings, agreements and the like, diary, calendar, desk pad, scrapbook, notebook, bulletin, circular, form, pamphlet, statement, journal, postcard, letter, telegram, telex, report, notice, message, analysis, comparison, graph, chart, interoffice or intraoffice communications, photostat or other copy of any documents, microfilm, or other film record, any photograph, sound recording on any type of device, any punch card, disk or disk pack, any tape or other type of memory generally associated with computers and data processing (together with the programming instructions and other written material necessary to use such together with printouts of such punch card, disk, or disk pack, tape or other type of memory) and every copy of each document which is not an exact duplicate of a document which is produced, every copy which has any writing, figure or notation, annotation or the like on it, drafts attachments to or enclosures with any document every document referred to in any other document.
- B. The term "hazardous substance" shall have the same definition as that contained in H&SC section 25316 and includes any mixtures of such hazardous substances with any other substances, including petroleum products. It shall also include any residual amounts of any hazardous substances left on containers used to store hazardous substances.
- C. The term "hazardous waste" shall have the same definition as that contained in H&SC section 25117.
- D. The term "person" shall have the same definition as in H&SC section 25319.
- E. The term "release" shall have the same definition as that contained in H&SC section 25320 and includes any spilling, leaking, pumping, poring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discharging of barrels, containers, and other closed receptacles containing any hazardous substance or pollutant or contaminant.
- F. The term "Site" shall mean the Bay Area Drum Site located in San Francisco, California, located at 1212 Thomas Avenue at the northern corner of Hawes

Mr. Peter C. Van Alyea

Page 8

December 4, 1991

Street, in the Hunter's Point district of San Francisco, California (see attached map).

- G. The terms "you" or "your company" shall mean Redwood Oil Company, its current and former parent and subsidiary corporations, including wholly and partially owned entities and Redwood Oil Company employees, contractors, trustees, current and/or former partners, successors, assigns, and agents.
- H. The term "your facility" means Redwood Oil Company: 455 Yoland Ave, Santa Rosa, California, and any other facility under your control that sent any substance to the Site.
- I. The term "drum" means any container that was used to store or transport any liquid, granular, or powder substance.

Information Request Questions

1. Provide all information relating to your hazardous substances management practices for all hazardous substances including any petroleum refinery products, that were used, generated, stored, treated, disposed of, or otherwise handled in or at your facility for the years 1948-1987. The description of hazardous substances management practices should include:

- A. For all hazardous substances, including any petroleum refinery products, obtained for your facility's operations in drums, identify: *everything purchased.*

- The nature of the hazardous substances in the drum
- The number of drums obtained per month or per year if fewer than one per month obtained
- The type and capacity of each drum
- The disposition of the drums after the hazardous substances were used
- The residual level left in each drum after the hazardous substances were used

Mr. Peter C. Van Alyea

Page 9

December 4, 1991

- The methods used to determine the residual levels in each drum.
- B. For all hazardous substances, including any petroleum refinery products, stored in drums at your facility, identify: *every thing stored*
- The nature of the hazardous substances contained in the drum
  - The number of drums stored per month
  - The type and capacity of each drum
  - The disposition of the drums after the substance was used
  - The residual left in each drum after the hazardous substances was used
  - The methods used to determine the residual levels in each drum.
- C. For all hazardous substances, including any petroleum refinery products, disposed of in drums by your facility at the Site, identify: *full drum*
- The nature of the hazardous substances contained in the drum
  - The number of drums disposed of per month
  - The type and capacity of each drum
  - The disposition of the drums after the hazardous substances were disposed of
  - The residual levels left in each drum after the hazardous substances were disposed of
  - The methods used to determine the residual levels in each drum.
- D. For all drums that once contained hazardous substances, including any petroleum refinery products, that were sent from your facility to the

Mr. Peter C. Van Alyea  
Page 10  
December 4, 1991

Site and that you assert contained no hazardous substances when they left your facility, identify:

- The nature of the hazardous substances originally contained in the drum
- The number of drums disposed of per month
- The type and capacity of each drum
- The disposition of the drums after the hazardous substances were disposed of
- The method used to remove all residual hazardous substances from the drum
- The method used to determine that no hazardous substances remained in the drum.

2. Identify all persons who have knowledge or information about the current or past generation, use, storage, treatment, disposal, or other handling of hazardous substances at your facility. If you have reasons to believe that there may be persons able to provide a more detailed or complete response to any question contained herein, or who may be able to provide additional responsive documents, identify such persons and the additional information or documents they may have.

*Pete* 3. Describe the legal organization of Redwood Oil Company, (e.g. corporation, limited partnership) including:

- A history of the organizational structure
- A listing of all current and past subsidiaries and operational divisions and parent corporations
- Corporate officers, names, titles, and responsibilities for each corporate entity
- Dates of incorporation and dissolution for each corporate entity

3357610518

- Dates of any name changes of the corporate entities
- Copies of articles of incorporation, partnership documents, or other organic documents for each corporate entity.

Attach all copies of any documentation of requested information to your response to this letter.

4. Provide information describing the net assets of your company and annual revenues of your company for each of the last five years. Attach financial statements, audits, and other documents that support these figures.
5. Provide a descriptive list of all insurance policies held by your company currently and during any period of your operations during which drums were sent from your facility to the Site that may provide coverage for liability stemming from your disposal of hazardous substances. The description should include:

- The effective date(s) of the policy
- The policy number(s)
- The name and address of the insurance company
- The amount of coverage under the policy.

Attach copies of all such insurance policies to your response to this letter.

6. Provide any known information on property condition, operations, chemical usage, and releases to the environment by other parties that you may be aware of at the Site. Also provide all information on any other person who may have sent hazardous substances to the Site.
7. Document each person and all files and records reviewed to answer the above questions.
8. Identify the person(s) answering questions on your behalf.

Compliance with the information request set forth above is mandatory, pursuant to sections 25185.6, 25358.1, and 25358.3 H&SC. Failure to respond fully and truthfully to the information request within thirty (30) days of the date of this letter may result in enforcement action by the Department, subject to the penalties allowed under sections 25189, 25189.2, 25191, and 25367 of the Code. The penalty provided is up to \$25,000 for each violation and

3357610519

Mr. Peter C. Van Alyea  
Page 12  
December 4, 1991

up to \$25,000 per day for each day that the violation continues. Please be further advised that provision of false, fictitious, or fraudulent statements or representations may subject you to criminal penalties.

Please send two (2) copies of the information requested to the Department representative:

Monica Gan  
California Environmental Protection Agency  
Department of Toxic Substances Control  
Site Mitigation Branch, Region 2  
700 Heinz Avenue, Suite 200  
Berkeley, California 94710.

Thank you for your cooperation in this matter. If you have any questions relating to the request, please contact Susan Bertken, Senior Staff Attorney, at (916) 322-9422, or Monica Gan, at (510) 540-3767.

Sincerely,

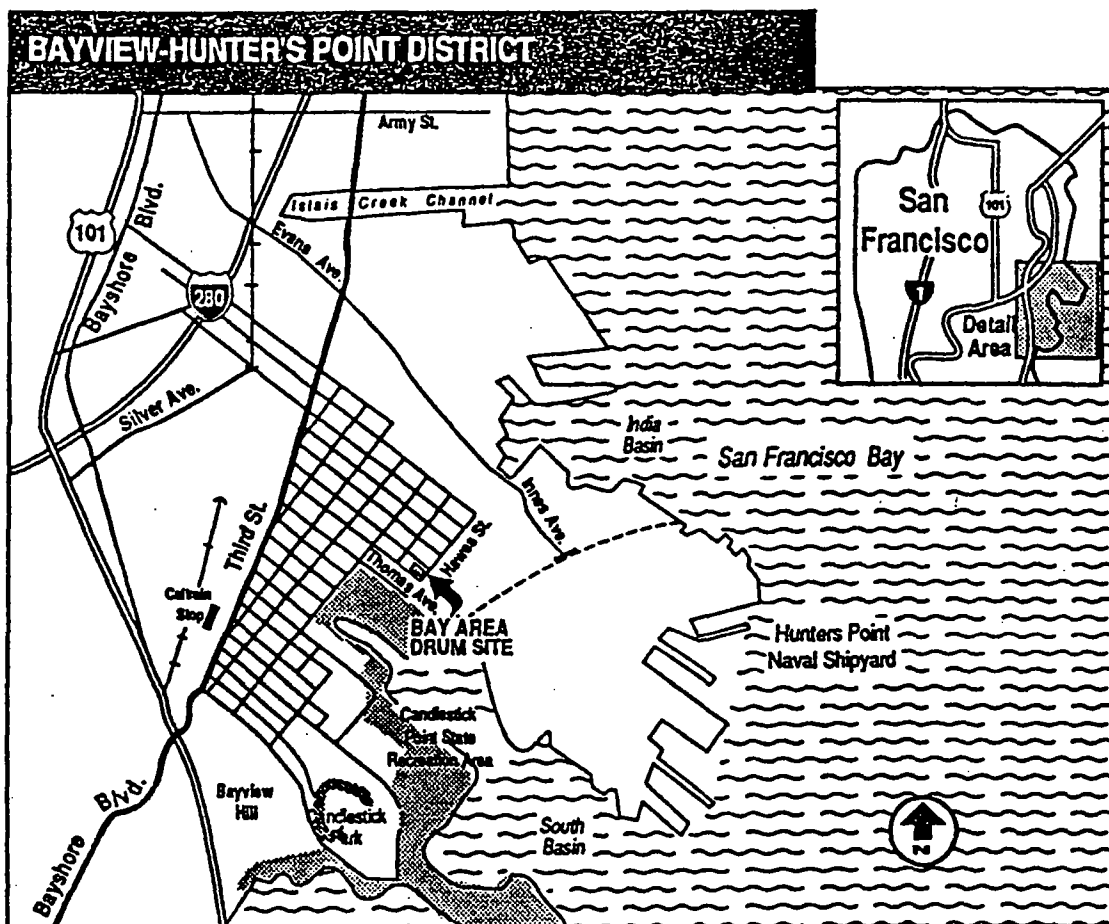

Barbara J. Cook  
Chief, Site Mitigation Branch

REDWOOD OIL COMPANY

1/23/92

Ms. Barbara J. Cook  
Calif. Environmental Protection Agency  
Site Mitigation Branch, Region 2  
700 Heinz Avenue, Suite 200  
Berkeley, Ca. 94710

Dear Ms. Cook:

This is in reference to your letter of December 4, 1991, and your conversation with Mr. Kron on December 24, 1991.

Per your instructions, I have listed below in broad categories those products which were purchased and resold during the years 1979 (the year the company was formed) until 1987. All products were new from the manufacturer, were petroleum based products, and to the best of my knowledge were not hazardous substances. They are:

- motor oils
- gear lubricants
- transmission fluids
- food processing lubricants
- metalworking fluids
- industrial oils
- greases
- heating fuel
- kerosene
- cleaning solvents

Regarding the last two products, these drums were refilled at our facility and not sent to a drum reconditioner for cleaning.

During the subject period we purchased new petroleum products from refiners, and sent empty drums to various drum reconditioning facilities. Prior to leaving our yard, all drums were either inverted and drip-dried, or pumped free of residual products and then drip-dried. At no time were any products returned to Bay Area Drum for disposal.

1. Information Request Questions:

A. For all hazardous substances, including any petroleum refinery products, obtained for your facility's operations in drums, identify:

The nature of the substances in drums: petroleum refinery products.

## REDWOOD OIL COMPANY

The number of drums obtained per month: an average of 300 during the period in question.

The type and capacity of each drum: DOT 17, 55 gallon drum.

The disposition of the drums after the substance was used: Refilled or sent for reconditioning.

The residual level left in each drum after the substance was used: Prior to leaving our yard, all drums were either inverted and drip-dried, or pumped free of residual products and then drip-dried.

The method used to determine the residual levels in each drum: visual inspection of each drum.

B. For all hazardous substances, including any petroleum refinery products, stored in drums at your facility, identify:

The nature of the substances in drums: petroleum refinery products.

The number of drums stored per month: an average of 100 during the period in question.

The type and capacity of each drum: DOT 17, 55 gallon drum

The disposition of the drums after the substance was used: Refilled or sent for reconditioning.

The residual level left in each drum after the substance was used: Prior to leaving our yard, all drums were either inverted and drip-dried, or pumped free of residual products and then drip-dried.

The method used to determine the residual levels in each drum: visual inspection.

C. For all hazardous substances, including any petroleum refinery products, disposed of in drums by your facility at the site, identify:

The nature of the substances in drums: None returned.

The number of drums per month: None.

The type and capacity of each drum: NA

## REDWOOD OIL COMPANY

The disposition of the drums after the substance was used: NA

The residual level left in each drum after the substance was used: NA

The method used to determine the residual levels in each drum: NA

D. For all drums that once contained hazardous substances, including any petroleum refinery products, that were sent from your facility to the site and that you assert contained no hazardous substances when they left your facility, identify:

The nature of the substances in drums: petroleum refinery products.

The number of drums per month: an average of 300 during the period in question, but from 1/86 to 2/87, we returned 5303 drums according to available records.

The type and capacity of each drum: DOT 17, 55 gallon drum

The disposition of the drums after the substance was used: Refilled or sent for reconditioning

The residual level left in each drum after the substance was used: Prior to leaving our yard, all drums were either inverted and drip-dried, or pumped free of residual products and then drip-dried.

The method used to determine the residual levels in each drum: visual inspection.

2. Ron Kron (previous Motor Oil Manager), Bob Barbieri, Jim Johnson (current Motor Oil Manager), Tom O'Hair, and Peter Van Alyea.

3. Redwood Oil Company is a California corporation, incorporated under H.R. Gantner, Inc. on 3/26/59. The name was changed in 1980 to Redwood Oil Company, Inc.
